WORK EXPERIENCE

Nelumbo consultores Software engineer

06/2021 - Present

Led frontend architecture across multiple projects, including an enterprise HR platform, building micro-frontends, a shared UI library, and full-stack solutions with React, Express.js, AWS, and CI/CD pipelines.

Achievements/Tasks

- Enterprise HR System
- Internal Frontend CLI Tool
- Payment gateway platform

PROJECTS

Frontend Developer – Health Monitoring Platform for Elderly Care

- Developed a web-based interface for a senior health monitoring system used by medical facilities in multiple European countries.

Frontend Developer – Insurance Endorsement Portal for a Major Financial Group

- Created and maintained the entire frontend architecture for an insurance policy endorsement platform.

Frontend Developer – International Real Estate Management Platform

- Contributed to a global property management solution, collaborating with an international team and working on both frontend and occasional backend tasks.

Frontend Developer – Configurable Payment Gateway for Insurance Quoting Systems

- Developed a customizable payment gateway integrated into multiple insurance quoting platforms.

Frontend Tech Lead – HR Microfrontend Architecture

- Oversaw the design and implementation of a large-scale HR platform using a microfrontend architecture, managing multiple teams and ensuring CI/CD and cloud integration.

Frontend Tech Lead – Ophthalmology Appointment Scheduling Platform

- Led the technical frontend architecture for an appointment scheduling system in the ophthalmology field, managing a team and setting up CI/CD pipelines

ACHIEVEMENTS

Nelumbo Genius 2023 (3 place) (01/2023 - 12/2023)

Recognition awarded for technical skills and professional performance

Nelumbo Genius 2024 (1 place) (01/2024 - 12/2024)

Recognition awarded for technical skills and professional performance.

Nelumbo Genius 2025 (1 place) (01/2025 - 01/2025)

Recognition awarded for technical skills and professional performance.

CERTIFICATES

Backend Development with Express.js (12/2025 - 12/2025)

Backend fundamentals with Express.js, REST APIs, middleware, routing, and best practices for scalable Node.js applications.
